WILMINGTON MARKETS. FOR THE

WEEK ENDING THURSDAY June 20, 1872.

CRUDE TURPENTINE-The supply of this article now in yard, increased by the daily receipts have stocked the market to an extent which has enabled distillers to purchase to their full wants, and has given them the advantage over sellers. In the early period of the week with exporters purchasing, last week's prices were fully maintained. On Tuesday, however, with a dull and declining naval store market, this branch naturally corresponded to the similar feeling and declined 25 cents on yellow dip and 35 cents on virgin. The receipts are considerably larger than those of the previous week, and the stock now in market is 3,828 bbls. against 2,368 bbls. The market closes steady at \$2 50 for hard, \$3 50 for yellow dip, and \$3 75 for virgin. The receipts and sales for the week are as

Saturday the previous days feeling was exhibited and at the close of the day's business the market showed a decline of 1 cent. Monday the dullness continued and transactions were free at a

decline of 1 cent. Tuesday the demand for export being good, the market strengthened and has since ruled steady at 48 cents with free opcrations. The receipts for the week reach 4,892 casks, against 4,234 casks for the previous week, showing an increase of 658 casks. The foreign and domestic shipments are quite heavy, but the stock has increased and the amount in market is 1.900 casks. The market closes steady at 48 cents. The sales for the week are as fol-

COTTON .- Our cotton market during the past week has barely sustained the name of "market," not for the want of a disposition on the part of buyers to effect sales, but on account of the extreme high rates holders are asking and the limited stock held in receivers' hands. Under the influence of better Northern markets, holders have remained strong in their views and have refused to accept the present quotations. The receipts and exports have about

bales against 10,762 bales last week, 13,117 bales the previous week, and 12,083 bales three weeks since, making the total receipts since the first of September, 1871, 2,678,015 bales against Wittams & Murchison | 3,815,176 bales for the same period of 1870-'71, showing a decrease since September 1, this year, of 1,167,131 bales. The exports for the week reach a total of 13,501 bales, of which

and 3,716 to rest of the Continent, while the stocks as made up are now 161,634 bales. The transactions of the week consist of 149 bales as follows: 69 bales at 22% cents, 11 do. at 23 cents, 50 do. at 21 cents, and 10 do. at 21% cents. The following are the nominal quotations as obtained from the cotton brokers to-day:

G G Barker & Co Middling...... 25 Rostn.-The rosin market during the past week has been sluggish and the finer grades The Convention was then formally open- John A. Grian, Foster, dis, Harriss & Howell | have scarcely held their own, while the lower qualities have given away almost daily .-Strained has been the leading feature, and sales in the aggregate of 12,000 bbls, have been transacted, at prices in almost every instance favoring buyers. Friday the market declined 5 cld May 22 | conts, Saturday 10 cents, Monday 15 cents, and at the close of our report the condition of the market remained unchanged. No. 2 has also, in sympathy with strained, declined. An extra quality of No. 2 has been sought after, and

purchases to some extent have been quite free at a good margin above strained. No. 1 and Pales have barely maintained their former prices, but to-day the market shows a slight aprovement, and closes with an undertone exhibiting more strength. The receipts for the week are smaller than those of the week previous, but the stock has been increased for the want of ship room, and to-day, as taken, is 33,876 bbls., against 29,217 for last week. The sales for the week are as follows: Friday 1,686 bble. at \$2 50 for strained, \$3 25 for low No. 11, \$1 50 for extra No. 1, \$4 25 for low Pale, \$4 50 for Pale, and \$5 for extra Pale. TAR .- In the general position of the market we have no material change to note. Prices have ruled throughout the week unchanged, although for the past three or four days the undertone of the market has shown a weaker feeling and receivers have found it more difficult to effect sales. The receipts of water ground by railroad are large, and with the amount daily manufactured by the city mills the market is well supplied. Dealers sell from store at \$115 per bushel.

Carolina is in mederate stock, and good enquiry

PEANUTS-Have exhibited no change in the general position of the market. The receipts are much smaller than the previous week's, and by the exports the stock has become slightly decreased, though to no extent as to have any effect on the market. We composed of the countles of Duplin and Wayne, report the condition of the market as being for a seat in the Senate of the approaching steady at the following quotations: Ordinary..... \$ 75 to 1 00
